

KFI
COVID-19 PROTOCOL

COVID-19 - KFIPROTOCOL

1. INTRODUCTION

The following guidelines have been issued by the KUNG FU FEDERATION OF INDIA (KFI) using the scientific knowledge available at the moment (as for 10 December 2020), after review by the KFI Medical Commission, and KFI event Organizing Committees.

It is important to bear in mind that all sport and recreation resumption decisions **must be based on State and Territory COVID-19 public health advice, and thus**, these protocols, shall be applicable for the Kung Fu events as minimum requirements only after their approval by the pertinent local authorities.

KFI's top priority regarding Covid-19 is public health and safety. KFI will always put the health and safety of all athletes, coaches, technicians, volunteers, officials, referees and organizing committee staff, first.

The guidelines will be updated according to the latest information from the World Health Organization (WHO), International Olympic Committee (IOC) and the scientific information that are released on this topic. The guidelines will be published at the Kung Fu Federation of India Website and distributed to all Continental and National Federations and host state involved in Kung Fu competition.

For each official KFI event a Covid Event Medical Team (CEMT) will be assembled and ultimately responsible for the application of this KFI Protocols and the management of any positive Covid cases arising. This team will constitute the following:

- KFI Covid Manager (Medical Doctor) (to be appointed by KFI)
- Local Covid Manager (Medical Doctor) (to be appointed by Local Organizing Committee (LOC))
- Local Covid Staff (i.e., Nurse, Nurse Assistant, Laboratory Technician)

1.1. GENERAL CONSIDERATIONS

The COVID-19 pandemic has forced significant changes in the whole world and, of course, also in the world of sports. The transition period following the outbreak will be long and the

organizers of sports events will be asked to implement all possible measures for respecting the social distancing and hygiene requirements. The organizing committees of any event must build a relationship with the local authorities based on trust to decide that it is safe to hold the sport event.

KFI needs to look for ways of conducting competitions in the safest possible way for the participants, the technicians, coaches, referees, organizing committee staff and volunteers, and also the spectators. We will need to adapt to new ideas - that hopefully will be only temporary ones - that should be shared among the entire Kung

Fu family for everyone's benefit. KFI is following all the recommendations from WHO/IKFF and wants to offer full respect and support to the Local Organizing Committees (LOC) and host member associations to make Kung Fu events both feasible and safe. The IOC has advised that during the evolving COVID-19 outbreak, effective protection of the health and safety of athletes must remain a priority. Under the IKFF regulations, event organizers must ensure all athletes are covered by adequate measures to protect their health and that they have access to prompt medical care while participating in the event. Event organizers must put in place preventive measures to stop the transmission of infection and put in place mitigation measures to minimize the risk of infection. Event organizers must ensure that any athlete or participant in an event on their territory who needs immediate medical care is given access to medical facilities.

1.2. INDIVIDUAL RESPONSIBILITY

The Kung Fu Federation of India has decided to follow WHO recommendations regarding the measures aimed to reduce the general risk of transmission from COVID-19 infections:

- Participants should aim to keep at least 1,5 meters distance from other people, particularly those who don't wear a certified mask, and especially if they feel unwell and have a cough or sneeze or may have a fever;
- Frequent hand washing by participants using soap and hot water or alcohol-based (at least 65–70%) hand rub for 20 seconds;
- People should practice cough etiquette (maintain distance of at least 1,5 meters, cover mouth and nose while coughing and sneezing with disposable tissues or clothing, and wash their hands);
- To avoid shaking hands or hugging;
- Avoid steam rooms or sauna;
- Avoid touching their own mouth, nose, or eyes.

Anyone who feels unwell (i.e. fever, cough) should stay at home and keep away from work, school, or crowds until symptoms resolve. **Stay away from the event when ill!**

In case of symptoms suggestive of acute respiratory illness before, during or after travel, the athletes are encouraged to seek medical attention and share travel and contacts history with their healthcare provider. Public health authorities should provide travelers with all necessary information to reduce the general risk of acute respiratory infections via health practitioners, travel health clinics, travel agencies, conveyance operators and at Points of Entry.

1.3.

WHO RISK ASSESSMENT AND MITIGATION CHECKLIST FOR MASSGATHERINGSIN THECONTEXT OF COVID-19

An event is considered a “**Mass Gathering**” if the number of people it brings together is so large that it has the potential to strain the planning and response resources of the health system in the community where it takes place.

Following this definition, high level international sporting events such as the World Cups, World Championships and other major international sport events (including, of course, National Kung Fu Championships), and count as Mass Gatherings (MG). However, lower-profile Kung Fu events can also meet WHO’s definition of a mass gathering.

Kung Fu Federation of India strongly recommends that each organizing committee assesses its event using the WHO Risk Assessment and Mitigation Checklist for Mass Gatherings in the context of COVID-19 (mandatory for all World Kung Fu events). This is an operational tool that offers guidance for organizers holding meetings during the COVID-19 outbreak and that should be accompanied by the WHO COVID-19 Generic Risk Assessment Excel file available on the WHO website.

KFI strongly advises the LOCs not to perform the risk assessment alone; do it in cooperation with counterparts especially with local Public Health Authorities and do not put them into situations to assess the risks without your involvement and understanding of the specific circumstances of each Kung Fu event. It is also important to introduce them into specific mitigation measures specified in this Guidelines that can be applied to Kung Fu events.

When organizers and health authorities are determining whether to hold a mass gathering or even an event that is not falling under the definition of “Mass Gathering”, they should determine what an acceptable risk is and what additional measures should be implemented to mitigate that risk.

Kung Fu Federation of India is asking all the organizers to familiarize with WHO’s mass gathering technical guidance and tools:

- Key planning recommendations for Mass Gatherings during COVID-19
- Generic Risk Assessment and Mitigation Checklist
- WHO interim guidance on how to use risk assessment and mitigation checklist
- Decision-Tree flowchart for Mass Gatherings in context of COVID-19
- Sports addendum risk assessment and mitigation checklist
- Religious addendum risk assessment and mitigation checklist
- WHO interim guidance-“Considerations in adjusting public health and social measures in the context of COVID-19”.

2.

PARTICIPANTS' HEALTH SCREENING PROTOCOL (All Participants)

Beginning 14 days prior to arrival until the end of competition, all participants taking part in a Kung Fu event must monitor their health status continuously (including taking their temperature and monitoring for any symptoms).

48-72hrs prior to onsite registration, the participant must undergo a PCR nasopharyngeal swab test (PCR test). **Without a valid PCR test, no accreditation will be given.**

No other tests will not be accepted.

At the onsite registration, all participants shall submit the following documents:

I) Original Laboratory Accredited PCR Test Results in English

II) Completed KFI Health Questionnaire (Annex I)

III) Waiver of Liability Form

a. Delegation/Team Representative (Annex II)

i. Delegation List

b. Individual Form (Annex III)

c. Parental Consent (Annex IV)

- The Representative of the Delegation/Team will be responsible for ensuring the validity of all signatures.

After the onsite registration process, **all participants must undergo an Antigen Test**, except for Athletes, Coaches, Physical Therapist and Doctors. They shall undergo Antigen Testing each day of competition during the staggered time slot corresponding to their category which will be organized by the KFI Organizing Committee.

When performing the Antigen Test, all participants will hand over their accreditation, then they will perform the test and go to the waiting room. The Covid Manager (doctor) will return your accreditation upon a negative test.

Any positive test or fever will be instructed to isolate immediately, and local authorities will be informed by Local Covid Manager. Local authorities will proceed according to Local Health Regulations. The KFI will provide as much information in its possession as required by the Local Authorities.

Temperature checks must be performed daily at the entrance of the venue.

***The implementation of such protocols must be agreed upon by the Local Health Authorities.
If Local Health Regulations vary either by further or stricter controls, they shall take precedence over the KFI Covid Protocol and shall be implemented.**

3. RETURNING HOME PCR LABORATORY EVENT TESTING

The LOC must arrange and guarantee the availability of an accredited laboratory for the participants who need a PCR Pharyngeal Swab Test to return home. They should communicate the business hours, address, contact information, price, payment procedure, results delivery time and any other relevant information. Testing must be available 48-72hrs prior to the last day of competition. The results in English must be provided to all participants before the last day of competition. The sample collection or laboratory will not be in the same venue as the competition.

4. PARTICIPANTS' PREVENTION MEASURES (Certified Masks, Disinfection, Social Distance and Other General Methods)

Certified Masks

The use of Certified Masks of FFP2 type or equivalents (N95 (United States), KN95 (China), P2 (Australia/New Zealand), Korea 1st class (Korea), DS2 (Japan)) without valves within the specifications for use is **always mandatory** in the venue, with the exceptions for athletes that are detailed herein.

Once an athlete enters the venue grounds the athletes must always wear Certified Mask except while warming up, training, and competing in the designated areas/matss, respectively. This also means the Certified Mask shall be worn in transit between the Warmup and Competition Areas. The KFI/LOC is responsible for providing the KFI Official Certified Mask only to its referees and staff along with a contingency amount for medical needs.

Disinfecting

Alcohol-based hand sanitizers and tissues should be accessible in all common areas, and especially in the warm-up, medical treatment areas, and at the entrance and exit doors of the all-designated areas (Registration, Weigh-In, Antigen Test, Warm up, Competition area). Hand and leg/foot protections shall be disinfected, with a product with viridical effect that is nontoxic for humans, immediately before each bout, with enough time to allow them to dry before the start of the bout. Competition, Warm Up Area's, Antigen Test waiting room will be disinfected with a product with viridical effect that is nontoxic for humans at the end of each category.

Social Distance

Physical (at least 1.5 meters) separation of all participants, expect for athletes in bouts. The social distancing rules that are requested by the public health authorities of the specific country where the event is taking place takes precedents.

There will be no physical signs of affection or recognition between athletes or coach before, during or after competition like hugs, handshakes, or kisses.

The flow of participants will be one-way only, with the relevant signage on the floor, indicating the right direction with separate entrances and exits to all rooms.

Sharing of equipment is prohibited, especially water bottles, towels, bags, and cups.

5.

ORGANIZER SPECIFIC MEASURES

5.1. RISK COMMUNICATION AND AWARENESS

It is important that all the provisions in place are communicated clearly to all participants and spectators in advance through social media, websites and through their National Federations and KFI communication channels.

Display health advisories at-venue and in all possible venue facilities and access routes, reminding everyone and encouraging to maintain high levels of personal hygiene, including advice on handwashing, and minimizing physical contact.

LOCs should develop a risk communication strategy for COVID-19 before the event. It is not unlikely that such an event will draw significant media attention in that context and that widely available and present social media would enable inaccurate and unnecessary disinformation.

Event organizers should appoint designated person(s) to lead media activities and to be tasked with managing all external communications with national and international government officials, the public, and the media. Spokespersons can be appointed too. It is advisable to set-up monitoring of national and international media for rumors, to be able to counter them early.

Coordination with major social media sites like Twitter, Facebook, Instagram, TikTok, WeChat, etc. should be set up so that messaging can be coordinated with, and assisted by, those platforms.

5.2. VENUE FACILITIES

All working spaces and provided facilities must be organized in a way that social distancing is respected. Provide disinfectant wipes and advise venue cleaning staff to disinfect door handles, toilet handles, bathroom faucet handles, etc. in all areas several times per day.

Room doors must remain open if possible and if not should be managed by volunteers for not allowing the different participant touching the door handles. Closed bins for safe disposal of hygienic materials (e.g. tissues, towels, sanitary products) in all rooms must be provided.

The number of cleaning personnel shall be increased for a thorough cleaning and sanitizing of the venue during the different activities, such as access, weigh-in, warm-up, competition and medals' ceremonies.

Signage on the floor shall ease the flow of athletes in the different areas of the venue. Special attentions shall be granted to indicate the areas of weigh-in, warm-up and competition.

A dedicated room will be available for physios and doctors, next to the warm-up area, with individual cabins that will be sanitized after each use by the local staff.

The number of persons in each of the rooms of the venue shall be kept at a minimum and accreditation cards shall be granted with a strict control of the limits and access areas.

5.3. ACCREDITATION

Restrict the number of people inside an accredited area. Those with access must be limited to the absolute minimum and social distancing in relation to available venue areas as space must be considered when determining the numbers.

Only one coach per competition category (i.e.: male or female, seniors, juniors, cadets,) and one medical doctor plus one physiotherapist per State Association will be accredited to all KFI events. The maximum quota of coaches allocated to the delegations as per the KFI Organizing Rules shall always be respected. The re-validation of the accreditation card must take place daily following the health screening process.

There will be two types of accreditations, one for Athletes and one for Referees and Coaches.

SOCIAL ACTIVITIES

Farewell parties and opening/closing ceremonies should not be planned so as to minimize the opportunities of mass gathering in small spaces.

5.4. STAFFING

The social gathering of the LOC team and its volunteers must be kept to an absolute minimum.

All training sessions should take place either via online platforms, or on site while respecting social distancing.

The number of volunteers must be reviewed and kept down to the absolute necessary. The working conditions must follow the recommendations from the local Health Authorities.

5.5. SPECTATORS' FLOWS IN VENUE AREAS

(CONTROLLED ACCESSED AREAS)

All the flows within the venue must be one-directional. Spectators must not stop in narrow sections of the corridors.

5.6. MEDIA SERVICES

All applicable Prevention Measures (Section 5) must be always respected. All media members must perform the KFI Health Screening Protocol (Section 2). Accredited media representatives must be limited, considering social distancing and the available space.

If there is a photo stand, or during Medal presentation ceremonies, 1,5 meters and available positions must be pre-marked.

5.7. TECHNICAL OFFICIAL

KFI will review and if possible, optimize the size of the technical officials and referees' teams and number of staff traveling to an event.

Accommodation arrangements should consider the social distance and KFI Organizing Rules, in contact with the Local Organizing Committee and host country, will prefer arranging single occupancy where possible.

6. ATHLETES' SERVICES

6.1. GENERAL

The KFI OC and LOC must investigate ways of conducting the registration process (that will be, whenever possible prepared on-line in advance), referees, coaches and athletes' briefings, and, in general all situations where information is going to be communicated to groups of people, using electronic and on-line media, so as to reduce pre-race social interaction.

6.2. TRANSFER TO THE VENUE

The LOC must plan to minimize the mixing of delegations during Venue transfers. If not possible, there should always be empty seats between the different delegations. It is strongly recommended for the delegations to send only the necessary support staff and try to reduce its size to the absolute minimum.

All applicable Prevention Measures (Section 5) must be always respected.

The LOC will provide all those accredited persons with transport from the official hotels to the competition venue, according to the specific transportation information for each event as detailed in the event rules.

The total occupancy of the buses will be limited, and a safety distance will be maintained occupying only one seat out of two of each vehicle. The use of a Certified Mask is mandatory inside the buses for all.

There will be dedicated buses for the teams / delegations and different ones for the Referees and staff.

There will be a strict staggered bus schedule according to each competition category to avoid crowding.

6.3. TRAINING FACILITIES

All applicable Prevention Measures (Section 5) must be always respected.

Mats or gym training sessions may be provided, always with advanced booking, as long as the use of the facilities is allowed by the public authorities, and the surfaces, mats, etc. are thoroughly cleaned with disinfectants with veridical effect (i.e.: diluted bleach) before a new delegation enters the facility.

7. ATHLETES' AND COACHES' BRIEFINGS INKUNG FU FEDERATION OF INDIAEVENTS

All coaches' briefings shall be conducted on-line, if technically feasible, for Kung Fu Federation of India events. The athletes' briefing is not mandatory for any athletes. All tournament information must be provided to the athletes online, through the event and KFI website.

An online briefing should be organized (on the Zoom or similar platforms) at a time and date decided by the KFI OC, TC, RC. The attendees of the online briefings / meetings will be view-only and watch the presentation, and they will have the opportunity to make questions or ask for explanations by the online Q&A feature. The presenters from the different KFI Commissions shall be available for any clarifications during the course.

8. WEIGH-IN ZONE IN/OUT

All applicable Prevention Measures (Section 5) must be always respected. Athletes must perform the weigh-in immediately after the on-site registration. This is meant to simplify the process and keep crowding to a minimum. The KFI OC and the LOC must establish check-in times for weigh-in in specific time slots. The time slots must be calculated according to the size of the weigh-in area, the number of electronic scales, the number of athletes and the number of officials involved. The number of athletes accessing the weigh-in area will not exceed 10 persons and will follow strict order by category and state in alphabetical order. In the weigh-in area there will be up to 10 chairs for the athletes to leave their clothes. The weigh-in will be performed in underwear only and with the accreditation ready in the hand. All the necessary checks will be carried out visually, where possible. The officials may need to do a physical check to some athletes. In this case, sanitary wipes will be available to athletes and officials for wiping down after officials checked the athlete. After each weigh-in group has finalized, the elements used in the weigh-in area will be sanitized.

9. COMPETITION :

WARM-UP AREA

The warm-up area shall be of at least 9m² per athlete (and coach) and visible marked. If possible, the mat will be identified by flipping pieces for alternate blue/red color of respectively 9m², to assist the athletes to stay within their own area.

The access to the warm-up area will be restricted to one coach for each competitor. Except during the medal rounds, where it will be limited to 1 coach and 1 practice partner (must be a registered athlete) for each competitor. Team physios and doctors will not be able to access the warm-up area and a separate room will be made available for those athletes needing treatment. No other athlete or coach, other than those involved in the competition area in the ongoing category will be allowed to access the warm-up area.

After each competition category/group leaves the warm-up area, it will be sanitized.

As mentioned in previously, only athletes may take off their Certified Masks while in the warm-up area, immediately prior and must put it back on immediately afterwards.

10.1. CHANGING ROOMS & TOILETS

The use of changing rooms and toilets will have limited occupancy only and will be sanitized after each use.

10.2. COMPETITION AREA

All applicable Prevention Measures (Section 5) must be always respected.

The flow of athletes and officials will be one-way only, with the relevant signage on the floor, indicating the right direction. The competition equipment of each athlete, mitts and shin pad & foot protector, will be sanitized by a staff member before each bout, at the seat in the waiting area of each mat.

After each category, the mats area, as well as the scorekeepers' table will be sanitized. There must be an appropriate number of disinfecting units and/or staff to maintain the rhythm of the competition.

Alcohol-based hand sanitizers and tissues should be available at the entrance and exit of the FoP, as well as on the officials' and scorekeepers' tables.

A dedicated cleaning team shall be available on the competition area with the adequate cleaning and sanitizing materials for their use, whenever required. There must be an appropriate number of disinfecting units/or people in order to maintain the rhythm of the competition.

10. REFEREES

All Covid Prevention Methods (SECTION 5) must be always respected. Referees will be provided disposable gloves prior to the beginning of the fight competition since the red and blue flags will be shared.

11. MEDAL CEREMONIES

All Covid Prevention Methods (Section 5) must be always respected.

The flow of athletes and officials will be one-way only, with the relevant signage on the floor, indicating the right direction.

If there is a photo stand, or during Medal presentation ceremonies, 1,5 meters and available positions must be pre-marked.

12. ANNEX I, II, III, IV (Required Documents)

- I) **KFI Health Questionnaire**
- II) **Waiver of Liability Form "Delegation/Team"**
 - a. Delegation/Team List
- III) **Waiver of Liability Form "Individual"**
- IV) **Waiver of Liability Form "Parental Consent"**

Waiver of Liability Form

“Delegation/Team”

Assumption of the Risk and Waiver of Liability Relating to Coronavirus/COVID-19 and Acceptance of the KFI Covid Protocol & Local Health Measures

The novel coronavirus (“COVID-19”) has been declared a worldwide pandemic by the World Health Organization. The Kung Fu Federation of India (KFI) has put in place preventative measures to reduce the spread of COVID-19; however, cannot guarantee that you will not become infected with COVID-19.

For my own safety and of those participating in the KFI Events, I voluntarily agree to review and rigorously and completely comply with the KFI Covid Event Protocol and Local Health Measures.

I understand without question that the incompliance with the KFI Covid Event Protocol, KFI Organizing Rules and/or Local Health Measures may lead to the removal of my official accreditation for the event.

I voluntarily agree to assume all of the foregoing risks and accept sole responsibility for any injury to myself (including, but not limited to, personal injury, disability, and death), illness, damage, loss, claim, liability, or expense, of any kind, that I may experience or incur in connection with my attendance at the KFI Events.

On my behalf, I hereby release, covenant not to sue, discharge, and hold harmless the event organizers, its employees, agents, and representatives, of and from the Claims, including all liabilities, claims, actions, damages, costs, or expenses of any kind arising out of or relating thereto.

I understand and agree that this release includes any Claims based on the actions, omissions, or negligence of the KFI Events organizers, its employees, agents, and representatives, whether a COVID-19 infection occurs before, during, or after attending the KFI event.

As the **representative** (state association, Head Coach, Team Manager etc.) of my attached **Delegation**, I hereby declare that I assume and accept responsibility for the compliance of the previously mentioned norms by the members of my delegation and accompanying **parental consent forms for participants under 18 years of age on the day of the Official on-site registration.**
